Form 990, Part III, Line 4a, Program Service Accomplishments:

Solution: A world in which the criminal justice system is fully
transparent, accessible, and accountable.

To get there, Measures for Justice helps make criminal justice data:

- easier to get,
- easier to understand,
- easier to use.

Measures for Justice does this by providing data tools and services
that help communities drive the change they want to see. Some of these
include:

Commons - a platform that allows the public, police, prosecutors,
courts to work together to make criminal justice performance data
available as the basis for informed decision-making. As part of this
process, Commons provides communities with a unique opportunity to set
and track criminal justice policy goals.

Data Portal - one of the largest bodies of standardized, accurate, and
coherent county-level criminal justice data in the country. The Portal
allows users to compare the performance of counties within and across
states across a series of measures from arrest to post-conviction. The
Portal includes a growing number of states, counties and 45 million
criminal justice cases - which allows users to generate full county
reports and state overviews.
